Confession of a Serial Killer Katherine Ramsland, PhD 2016-09-06 In 1974, Dennis Lynn Rader stalked and murdered a family of four in Wichita, Kansas. Since adolescence, he had read about serial killers and imagined becoming one. Soon after killing the family, he murdered a young woman and then another, until he had ten victims. He named himself "B.T.K." (bind, torture, kill) and wrote notes that terrorized the city. He remained on the loose for thirty years. No one who knew him guessed his dark secret. He nearly got away with his crimes, but in 2004, he began to play risky games with the police. He made a mistake. When he was arrested, Rader's family, friends, and coworkers were shocked to discover that B.T.K. had been among them, going to work, raising his children, and acting normal. This case stands out both for the brutal treatment of victims and for the ordinary public face that Rader, a church council president, had shown to the outside world. Through jailhouse visits, telephone calls, and written correspondence, Katherine Ramsland worked with Rader himself to analyze the layers of his psyche. Using his drawings, letters, interviews, and Rader's unique codes, she presents in meticulous detail the childhood roots and development of one man's motivation to stalk, torture, and kill. She reveals aspects of the dark motivations of this most famous of living serial killers that have never before been revealed. In this book Katherine Ramsland presents an intelligent, original, and rare glimpse into the making of a serial killer and the potential darkness that lives next door.

Complexity Is Free David Hartmann 2015-05-12 The ability to create, an ability deeply embedded into every individual on the planet, is about to be set free by a powerful new technology, 3D printing. To Jack Einarsson, the reclusive founder of a subculture aimed at revolutionizing how

people create, 3D printing promises to empower mankind to solve the many challenges that civilization faces. But when 3D printing is threatened the impact is felt from Singapore to San Francisco, from Mumbai to Brussels and conflict ensues between power networks who fear the potential of 3D printing and those who wish to unleash it. Reluctantly returning to the world he'd left behind, Jack sets out to counter the governments and corporations fighting the spread of 3D printing and on the way discovers how rich the concepts and applications of 3D printing have become. A whirlwind journey through the varied perspectives of the future of 3D printing, 'Complexity Is Free' inspires you to imagine where 3d printing will take your world.

De lange weg naar de vrijheid Nelson Mandela 2017-10-21 De lange weg naar de vrijheid is de beroemde autobiografie van een van de grootste mannen van de twintigste eeuw. Folklore Kenneth L. Untiedt 2006 Folklore is everywhere, whether you are aware of it or not. A culture's traditional knowledge is used to remember the past and maintain traditions, to communicate with other members within a community, to learn, to celebrate, and to express creativity. It is what helps distinguish one culture from another. Although folklore is so much a part of our daily lives, we often lose sight of just how integral it is to everything we do. If we look for it, we can find folklore in places where we'd never think it existed. Folklore: In All of Us, In All We Do includes articles on a variety of topics. One chapter looks at how folklore and history complement one another; while historical records provide facts about dates, places and names, folklore brings those events and people to life by making them relevant to us. Several articles examine the cultural roles women fill. Other articles feature folklore of particular groups, including oil field workers, mail carriers, doctors, engineers, police officers, horse traders, and politicians. As a follow-up article to Inside the Classroom (and Out), which focused on folklore in education, there is also an article on how teachers can use writing in the classroom as a means of keeping alive the storytelling tradition. The Texas Folklore Society has been collecting and preserving folklore since its first publication in 1912. Since then, it has published or assisted in the publication of nearly one hundred books on Texas folklore.

Beyond the Screen Sarah Atkinson 2014-04-17 Runner-up for the British Association of Film, Television and Screen Studies Best Book Prize 2015 Beyond the Screen presents an expanded conceptualization of cinema which encompasses the myriad ways film can be experienced in a digitally networked society where the auditorium is now just one location amongst many in which audiences can encounter and engage with films. The book includes considerations of mobile, web, social media and live cinema through numerous examples and case studies of recent and near-future developments. Through analyses of narrative, text, process, apparatus and audience this book traces the metamorphosis of an emerging cinema and maps the new spaces of spectatorship which are currently challenging what it means to be cinematic in a digitally networked era.

Craftsmen of the Army Prince Philip Foreword by 2017-10-30 The Corps of Royal Electrical and Mechanical Engineers (REME) provides the Army's integral repair and recovery capability. Its soldiers are deployed at the front line and have to be capable of switching instantly from a technical role to fighting alongside those they support, as their many awards for gallantry demonstrate. This, the third volume of REME's distinguished history covers the period from post-Cold War drawdown to the end of UK combat operations in Afghanistan, during which time REME was continuously involved in operations. The narrative knits together personal accounts of front line experiences with an explanation of the political and military background, with a particular focus on equipment support issues. It explains how REME operates and deals with broader issues related to the procurement and support of equipment, and the changing organizations delivering these vital services, within which members of REME have frequently played key enabling roles.

The Fisher Body Craftsman's Guild John L. Jacobus 2013-07-01 The Fisher Body Craftsman's Guild was a national auto design competition sponsored by the Fisher Body Division of General Motors. This competition was for teenagers to compete for college scholarships by designing and building scale model "dream" cars. Held from the 1930s through the 1960s, it helped identify and nurture a whole generation of designers and design executives. Virgil M. Exner, Jr., Charles M. Jordan, Robert W. Henderson, Robert A. Cadaret, Richard Arbib, Elia 'Russ' Russinoff, Galen Wickersham, Ronald C. Hill, Edward F. Taylor, George R. Chartier, Charles W. Pelly, Gary Graham, Charles A. Gibilterra, E. Arthur Russell, William A. Moore, Terry R. Henline, Paul Tatseos, Allen T. Weideman, Kenneth J. Dowd, Stuart Shuster, John M. Mellberg, Harry E. Schoepf, and Ronald J. Will, are among those designers and design executives who participated in the Guild. The book also describes many aspects of the miniature model Napoleonic Coach and other scale model cars the students designed.

Godlike Adaluncatif Melchizedek 2001-01-20 Godlike is a condensed version of an original manuscript which was deemed too intense. It outlines the story of Mathews "christ complex" from a vision he had in 1996 to the present. Included in the unedited book are original rants, essays, and

memes- the self replicating ideas which are seeking appendages in the form of his technomiracles. Several inventions are detailed including free energy (Revelations "fire from heaven") and artificial intelligence (Revelations "breathing life into the image of the beast"). Godlike is intended to change the world on a global level and an individual level and to prepare the reader for the original manuscript which details the endtimes events in depth.

The Men of Black Ops, Inc., Volume 2 Cindy Gerard 2011-12-27 An eBook box set of bestselling author Cindy Gerard's Black Ops, Inc. books 4-6: Feel The Heat, Risk No Secrets, With No Remorse. FEEL THE HEAT Tough, beautiful, and blond, B.J. Chase, a covert operative at the Defense Intelligence Agency (DIA), is assigned to the National Security Agency to find out if and how someone at NSA is leaking information about a top-secret new U.S. weapons program to terrorists. When NSA cryptologist Stephanie Tompkins brings suspicious intercepted messages to the attention of her division head, her superior is killed and Stephanie gets embroiled in a terrorist plot that implicates her as a traitor. Black Ops Inc. swings into action because Stephanie is the completely honorable and patriotic sister of one of their fallen comrades and BOI team member Raphael Mendoza is secretly in love with her. First, Stephanie is taken to a safe house where BOI agent Joe Greene will guard her. Then Colombian-born Rafe Mendoza and DIA agent B.J. are sent to Colombia by the Department of Defense to find and destroy the site where a replica of the new U.S. weapon is being constructed (according to Stephanie's decoded intercepts). Posing as Rafe's lover, B.J. goes to Medellin with Rafe who is using his family's shady business connections to infiltrate the drug cartel bankrolling the weapon. As they carry out their deception, demolish the weapon, fake their own deaths and flee Colombia, Rafe and B.J. fall for each other much to their mutual surprise, just as Stephanie and Joe Greene do back in the States. RISK NO SECRETS When Black Ops, Inc. operative Wyatt Savage's former girlfriend Sophie calls him out of the blue, desperately requesting his help, Wyatt flies down to El Salvador. He's never stopped loving Sophie, even though she married his former best friend Hugh, who saved Wyatt's life more times than he can count when they worked together on secret missions for the CIA. Now Sophie is frantic because one of her students was abducted from the school she runs near the U.S. embassy in San Salvador. It appears that Sophie's twelve-year-old daughter was the kidnapper's target but they took the other girl by mistake. Wyatt is shocked when Sophie tells him that she and Hugh divorced two years ago, and she and her daughter hardly ever see him because he travels around the world protecting high-level business executives. With help from Sophie and two of his BOI brothers, Wyatt tracks down the kidnappers, but he alone undertakes the challenge of winning Sophie's heart. WITH NO REMORSE Black Ops, Inc. operative Luke—Doc Holliday—Colter, is taking some much needed down time, making his way across the Peruvian Andes via rail, when banditos attack the moving train in the midnight hours. It soon becomes apparent that robbery is not their intent but the abduction of super model "Valentina," who is traveling incognito while licking her wounds and recovering from a public scandal involving her ex-husband, high profile US Senator, Marcus Chamberlin. Luke whisks Valentina off the train in a daring escape but the two of them become the targets of a relentless manhunt. Enlisting the aid of Luke's BOI teammates, they soon discover that Val's intended abduction is linked to a plot put in play by an international gun smuggling alliance. The BOI team lead by Luke and with Val along as a necessary pawn, must race half way around the world to thwart a ruthless attack that would not only result in a devastating loss of life but destroy a tenuous peace the US and her allies have established in a vastly unstable part of the world.
