A Practitioner's Guide to European Patent Law Paul England 2019-10-17 Written by a team of lawyers with long-standing experience in patent litigation in Europe, this book is a comprehensive and practical guide to European patent law, highlighting the areas of consistency and difference between the most influential European patent law jurisdictions: the European Patent Office (EPO), England & Wales, France, Germany and the Netherlands. It is frequently the case that the decisions and approaches of these courts are cited by European patent lawyers of all jurisdictions when submitting arguments in their own national courts. The book is therefore intended to provide a guide to patent lawyers acting in the national European courts today. The book also looks to the future, by addressing all the areas of patent law for which the proposed Unified Patent Court (UPC) will need to establish a common approach. Uniquely, the book addresses European patent law by subject matter area, assessing the key national and EPO approaches together rather than in nation-by-nation chapters; and provides an outline in each chapter of the common ground between the national approaches, as a guide for the possible application of European patent law in the UPC.

Drivers of User Engagement in Influencer Branding Tanja Fink 2021-08-23 The knowledge on how to influence user engagement metrics and thereby brand visibility plays a crucial role in influencer branding – both for social media influencers as well as marketers. Based upon two holistic empirical models and the analysis of real-world data, Tanja Fink is able to show important drivers of user engagement in influencer branding. Therefore, the author is building upon established models from research in celebrity endorsement, product placement and social media marketing. The profound empirical results reveal surprising and highly relevant insights for brand managers which call for a more conscientious (visual) integration of brands in user-generated content (UGC) on Instagram. In addition, the author detects several mechanisms for increasing user engagement while preventing user reactance towards the brand endorsement.

Misbehaving Richard Thaler 2018-05-04 Nobelprijswinnaar Richard Thaler vertelt in 'Misbehaving' het verhaal van drie wetenschappers die in een gezamenlijke queeste de economie op haar kop zetten en vrienden werden voor het leven. Toen in de jaren zeventig economie als een harde wetenschap werd geprofileerd, rebelleerde een klein groepje wetenschappers hiertegen. Zij stelden dat er een belangrijk ding over het hoofd werd gezien in de economie: de mens. Thaler, Kahneman en Tversky legden de basis voor wat we nu de gedragseconomie noemen.

'Misbehaving' is een persoonlijk verhaal, doorspekt met prachtige anekdotes en leerzame voorbeelden uit het dagelijks leven. De leukste manier om iets te leren over gedragseconomie.

Dansen met een plastic zak Elize de Mul 2013-09-20 Het lijkt kenmerkend voor deze tijd dat we de wereld om ons heen ervaren in termen van nut. We zien veel objecten niet meer, maar kijken er als het ware dwars doorheen. Het zijn schimmen die enkel bestaan om ons in het dagelijks leven te dienen. In Dansen met een plastic zak krijgt één van deze alledaagse schimmen, die zich bij uitstek kenmerkt door zijn dienstbaarheid en onaanzienlijkheid, een podium geboden: de plastic zak. Hoewel er per dag miljoenen kilos plastic worden geproduceerd, verbruikt en weggegooid, duikt de plastic zak relatief zelden op in filosofische of kunstzinnige reflecties. Dit boek bestaat uit een reeks filosofische bespiegelingen over de plastic zak, over onze relatie tot dit onaanzienlijke ding en tot onszelf. We volgen de plastic zak hierbij in zijn optredens in films als American Beauty, documentaires en kunstwerken. De plastic zak ontpopt zich gaandeweg als een ding met vele dimensies en gezichten.
