Now and Then We Time Travel Fraser A. Sherman 2017-02-06 More than 400 films and 150 television series have featured time travel—stories of rewriting history, lovers separated by centuries, journeys to the past or the (often dystopian) future. This book examines some of the roles time travel plays on screen in science fiction and fantasy. Plot synopses and credits are listed for films and TV series from England, Canada, the UK and Japan, as well as for TV and films from elsewhere in the world. Tropes and plot elements are highlighted. The author discusses philosophical questions about time travel, such as the logic of timelines, causality (what's to keep time-travelers from jumping back and correcting every mistake?) and morality (if you correct a mistake, are you still guilty of it?).

The Disappearance of Nagato Yuki-chan Nagaru Tanigawa 2013-05-28 When Yuki is grazed by a car on her way home from school, her minor injuries belie the drastic change that has taken place within her: the "Yuki Nagato" after the accident is not the same person as the Yuki from before. The new Yuki has all of the same memories, but

they feel as if they were lived by someone else. How will Yuki's fellow club members react to their new friend? And how will Yuki respond to the lingering impressions of her feelings for Kyon...?

The Disappearance of Nagato Yuki-chan Nagaru Tanigawa 2012-07-24 This spin-off of the bestselling Haruhi Suzumiya series takes place in the world of the "Disappearance" arc of the original novels, focusing on the high school life (and romance!) of a tentative and bashful Yuki Nagato quite unlike the one you've come to know and love through the usual exploits of the SOS Brigade...but no less charming!

The Disappearance of Haruhi Suzumiya (light novel) Nagaru Tanigawa 2012-09-04 What if you woke up one morning, and everything changed? It's one week before Christmas Eve, and Haruhi and the S.O.S. Brigade (a club for her high school's strangest and most extraordinary students) are gearing up for holiday festivities. But just before the fun kicks off, Kyon, the only "normal" member, wakes up in a weird

alternate dimension, one where Haruhi attends another school entirely, Nagato the time traveling robot is just an ordinary human, and Mikuru (the cute girl of Kyon's dreams) doesn't even recognize him-in other words, S.O.S. Brigade never existed. The only clue Kyon can find is a bookmark left by the robot version of Nagato, which leads him on a quest back in time, where he interacts with the storyline from "Bamboo Leaf Rhapsody", a short story from the previous Haruhi book, The Boredom of Haruhi Suzumiya. This fun and quirky holiday tale is reminiscent of A Christmas Carol and It's a Wonderful Life.

The Melancholy of Suzumiya Haruhi-chan Nagaru Tanigawa 2011-12-12 The SOS Brigade gets browbeaten into entering a baseball tournament to help their fearless leader stave off boredom. But despite the Brigade's clear lack of skill Haruhi has no intention of losing...and she's ready to pitch a fit if her team doesn't step up to the plate!

Time Travel in Popular Media Matthew Jones 2015-04-30 In recent years numerous films, television series, comic books, graphic novels and video games have featured time travel narratives, with characters jumping backward, forward and laterally through time. No rules govern time travel in these stories. Some characters move by machine, some by magic, others by unexplained means. Some time travelers can alter the timeline, while others are prevented from causing temporal aberrations. The fluid forms of imagined time travel have fascinated audiences and prompted debate since at least the 19th century. What is behind our fascination with time travel? What does it mean to

be out of one's own era? How do different media tell these stories and what does this reveal about the media's relationship to time? This collection of new essays--the first to address time travel across a range of media--answers these questions by locating time travel narratives within their cultural, historical and philosophical contexts. Texts discussed include Doctor Who, The Terminator, The Georgian House, Save the Date, Back to the Future, Inception and Source Code.
