The Roots of Jewish Consciousness, Volume One Erich Neumann 2019-05-06 The Roots of Jewish Consciousness, Volume One: Revelation and Apocalypse is the first volume, fully annotated, of a major, previously unpublished, two-part work by Erich Neumann (1905–1960). It was written between 1934 and 1940, after Neumann, then a young philosopher and physician and freshly trained as a disciple of Jung, fled Berlin to settle in Tel Aviv. He finished the second volume of this work at the end of World War II. Although he never published either volume, he kept them the rest of his life. The challenge of Jewish survival frames Neumann's work existentially. This survival, he insists, must be psychological and spiritual as much as physical. In Volume One, Revelation and Apocalypse, he

argues that modern Jews must relearn what ancient Jews once understood but lost during the Babylonian Exile: that is, the individual capacity to meet the sacred directly, to receive revelation, and to prophesy. Neumann interprets scriptural and intertestamental (apocalyptic) literature through the lens of Jung's teaching, and his reliance on the work of Jung is supplemented with references to Buber, Rosenzweig, and Auerbach. Including a foreword by Nancy Swift Furlotti and editorial introduction by Ann Conrad Lammers, readers of this volume can hold for the first time the unpublished work of Neumann, with useful annotations and insights throughout. These volumes anticipate Neumann's later works, including *Depth Psychology and a New Ethic*, *The Origins and History of Consciousness*, and *The Great Mother*. His signature contribution to analytical psychology, the concept of the ego–Self axis, arises indirectly in Volume One, folded into Neumann's theme of the tension between earth and YHWH. This unique work will appeal to Jungian analysts and psychotherapists in training and in practice, historians of psychology, Jewish scholars, biblical historians, teachers of comparative religion, as well as academics and students.

The Child Erich Neumann 2018-03-29 *The Child* is an examination of the structure and dynamics of the earliest developments of ego and individuality. In it we progress from the primal relationship of a child and mother through to the emergence of the ego-Self constellation, via the child's relationship to its own body, its Self, the Thou and being-in-the-world. We move from the matriarchate to the patriarchate; from "participation mystique" to the "standpoint of the Self around which the ego revolves as around the sun".

Jung on Mythology C. G. Jung 1998-08-16 Theories of myth differ based on perceptions of its origin and function. This volume collects and organizes key passages on myth by Jung and by some of the most prominent Jungian writers after him. The book synthesizes the discovery of myth as a therapeutic tool to explore the unconscious.

The Fear of the Feminine Erich Neumann 2022-03-08 These essays by the famous analytical psychologist and student of creativity Erich Neumann belong in the context of the depth psychology of culture and reveal a prescient concern about the one-sidedness of patriarchal Western civilization. Neumann recommended a "cultural therapy" that he thought would redress a "fundamental ignorance" about feminine and masculine psychology, and he looked for societal healing to a "matriarchal consciousness" that forms the bridge between the feminine and the creative. Brought together here for the first time, the essays in the book discuss the psychological stages of woman's development, the moon and matriarchal consciousness, Mozart's *Magic Flute*, the meaning of the earth archetype for modern times, and the fear of the feminine. In Mozart's fantastic world, Neumann saw a true

Auseinandersetzung--the conflict and coming-to-terms with each other of the matriarchal and the patriarchal worlds. Developing such a synthesis of the feminine and the masculine in the psychic reality of the individual and of the collective was, he argued, one of the fundamental, future-oriented tasks of both the society and the individual.

Consciousness, Volume Two: Hasidism is the second volume, fully annotated, of a major, previously unpublished, two-part work by Erich Neumann (1905–1960). It was written between 1940 and 1945, after Neumann, then a young philosopher and physician and freshly trained as a disciple of Jung, fled Berlin to settle in Tel Aviv. He finished this work at the end of World War II. Although he never published it, he kept it the rest of his life. Volume Two, Hasidism, is devoted to the psychological and spiritual wisdom embodied in Jewish spiritual tradition. Relying on Jung's concepts and Buber's Hasidic interpretations, Neumann seeks alternatives to the legalism and anti-feminine bias that he says have dominated collective Judaism since the Second Temple. He argues that modern Jews can develop psychological wholeness through an appropriation of Hasidic legends, Talmudic texts, and Kabbalistic mysteries, including especially the Zohar. Exclusively, this volume includes a foreword by Moshe Idel. An appendix, Neumann's four-lecture series from the 1940s, gives a glimpse of his intended, unpublished Part Three. These volumes anticipate Neumann's later works, including Depth Psychology and a New Ethic, The Origins and History of Consciousness, and The Great Mother. In Volume Two, Hasidism, his concept of the ego–Self axis is developed in clearly psychological terms. Four previously unpublished essays, appended to Volume Two, illustrate Neumann's developmental psychology, including his theme of primary and secondary personalization. This unique work will appeal to Jungian analysts and psychotherapists in training and in practice, historians of psychology, Jewish scholars, biblical historians, teachers of comparative religion, as well as academics and students.

Mama's laatste omhelzing Frans de Waal 2019-05-20 In 'Mama's laatste omhelzing' richt Frans de Waal zich op het rijke emotionele leven van dieren. Het boek opent met het dramatische afscheid in Burgers' Zoo tussen Mama, een stervende 59-jarige chimpansee, en Jan van Hooff, de bekende hoogleraar biologie. Hun laatste ontmoeting werd gefilmd en vervolgens door miljoenen mensen bekeken. Na zijn succesvolle boek 'Zijn we slim genoeg om te weten hoe slim dieren zijn?', brengt de Waal met 'Mama's laatste omhelzing' onder de aandacht dat mensen ook emotioneel meer verwant zijn aan dieren dan we denken. Frans de Waal interpreteert gezichtsuitdrukkingen en vertelt over de emotionele kanten van dierlijke én menselijke omgangsvormen. Hij ziet geen fundamenteel verschil tussen dierlijke en menselijke emoties en bespreekt de gevolgen van deze visie voor de manier waarop we met dieren omgaan. Dankzij de vele voorbeelden en de heldere taal van De Waal is 'Mama's laatste omhelzing' niet alleen een feest om te lezen, maar verandert het ook voorgoed onze kijk op het gevoelsleven van dieren.

Saint/Oedipus William J. Berg 2019-06-30 A few years before his death, Gustave Flaubert finally returned to the adaptation of a legend that had fascinated him since adolescence. The result was *The Legend of Saint Julian the Hospitaller*, one of his celebrated *Three Tales*. According to tradition, Julian was a nobleman who turned to a life of self-denial after unwittingly fulfilling a prophecy that he would kill his parents. In Flaubert's hands the legend takes on astonishing complexity and depth. He portrays Julian as a man bound, like Oedipus, by an inexorable fate; a man capable of great cruelty and great piety who both dreads and desires that fate. In *Saint/Oedipus*, three practitioners of psychocriticism take a close look at Flaubert's powerful and problematic story. Focusing on recurrent patterns of the text, their essays not only shed light on the work itself but constitute an expert introduction to the methods of psychoanalytic criticism. Each contributor approaches *The Legend of Saint Julian* from a different perspective, drawing on the systems of Freud, Jung, Sartre, and the Chicago school of psychoanalysis. The book includes William Berg's translation of an essay on Saint Julian by Sartre—drawn from his biography of Flaubert, *L'Idiot de la famille*—which offers compelling insights into the psychological makeup of Flaubert. Two noteworthy features of the book are a fluent and faithful new translation of *Saint Julian* by Michel Grimaud, and a comprehensive reader's guide to the literature treating psychoanalytic theory and its application to literary texts. *The Origins and History of Consciousness. Blauwe diepte Nora Roberts 2017-07-11 Angeliques Vloek, een amulet van onschatbare waarde, ligt al eeuwenlang verborgen op de bodem van de zee. Wie hem vindt wacht roem, rijkdom en... de vloek die erop rust. Matthew Lassiter heeft een zeer persoonlijke reden om op de amulet te jagen: zijn vader werd er jaren geleden om vermoord. Hij heeft gezworen dat hij het ding zal vinden en zijn vaders dood zal wreken. Tate Beaumont wil Angeliques Vloek vinden vanwege de historische waarde - als maritiem archeoloog is ze gefascineerd door zowel de amulet als de legende. De twee gaan ietwat onwillig een samenwerking aan, die tot hun verrassing zeer vruchtbaar blijkt te zijn: ze vormen een goed team. Tot Matthews oude vijand opduikt, en de expeditie lijkt uit te lopen op een ramp... Nora Roberts heeft meer dan 200 romans op haar naam staan, en wereldwijd zijn meer dan 400 miljoen exemplaren van haar boeken verkocht. Indrukwekkende getallen waar haar fans niet van opkijken, want Nora is een auteur van onvergelykbare grootheid. Wie aan haar boeken verslingerd is, wil maar één ding: meer.

Analytical Psychology in Exile C. G. Jung 2015-03-22 C. G. Jung and Erich Neumann first met in 1933, at a seminar Jung was conducting in Berlin. Jung was fifty-seven years old and internationally acclaimed for his own brand of psychotherapy. Neumann, twenty-eight, had just finished his studies in medicine. The two men struck up a correspondence that would continue until Neumann's death in 1960. A lifelong Zionist, Neumann fled Nazi Germany with his family and settled in Palestine in 1934, where he would become the founding father of analytical psychology in the future state of Israel. Presented here in English for the first time are letters that provide a rare look at the development of Jung's psychological theories from the 1930s onward as well as the emerging self-confidence of another towering twentieth-century intellectual who was often described as Jung's most talented student. Neumann was one of the few correspondence partners of Jung's who was able to challenge him intellectually and personally. These letters shed light on not only Jung's political attitude toward Nazi Germany, his alleged anti-Semitism, and his psychological theory of fascism, but also his understanding of Jewish psychology and mysticism. They affirm Neumann's importance as a leading psychologist of his time and paint a fascinating picture of the psychological impact of immigration on the German Jewish intellectuals who settled in Palestine and helped to create the state of Israel. Featuring Martin Liebscher's authoritative introduction and annotations, this volume documents one of the

most important intellectual relationships in the history of analytical psychology.

Jacob & Esau Erich Neumann 2016-02-01 In 1934, Erich Neumann, considered by many to have been Carl Gustav Jung's foremost disciple, sent Jung a handwritten note: "I will pursue your suggestion of elaborating on the 'Symbolic Contributions' to the Jacob-Esau problem . . . The great difficulty is the rather depressing impossibility of a publication." Now, eighty years later, in *Jacob and Esau: On the Collective Symbolism of the Brother Motif*, his important work is finally published. In this newly discovered manuscript, Neumann sowed the seeds of his later works. It provides a window into his original thinking and creative writing regarding the biblical subject of Jacob and Esau and the application of the brother motif to analytical psychology. Neumann elaborates on the central role of the principle of opposites in the human soul, contrasting Jacob's introversion with Esau's extraversion, the sacred

and the profane, the inner and the outer aspects of the God-image, the shadow and its projection, and how the old ethic—expressed, for example, in the expulsion of the scapegoat—perpetuates evil. Mark Kyburz, translator of C. G. Jung's *The Red Book*, has eloquently rendered Neumann's text into English. Erel Shalit's editing and introduction provide an entrée into Neumann's work on this subject, which will be of interest to a wide range of readers, from lay persons to professionals interested in Jungian psychology and Jewish and religious studies. Erich Neumann was born in Berlin in 1905. He emigrated to Israel in 1934 and lived in Tel Aviv until his death in 1960. For many years he lectured and played a central role at Eranos, the seminal conference series in analytical psychology. His writings include *Depth Psychology and a New Ethic*, *The Origins and History of Consciousness*, and *The Great Mother*. The correspondence between C. G. Jung and Neumann was published in 2015. Dr. Erel Shalit is a Jungian psychoanalyst in Israel and founding director of the Analytical Psychotherapy Program at Bar Ilan University. He is the author of several books, including *The Cycle of Life and The Hero and His Shadow*. Dr. Mark Kyburz specializes in scholarly translation from German into English and is the co-translator of C. G. Jung's *The Red Book* (2009). He lives and works in Zürich, Switzerland.

Depth Psychology and a New Ethic Erich Neumann 1990-06-10 The modern world has witnessed a dramatic breakthrough of the dark, negative forces of human nature. The "old ethic," which pursued an illusory perfection by repressing the dark side, has lost its power to deal with contemporary problems. Erich Neumann was convinced that

the deadliest peril now confronting humanity lay in the "scapegoat" psychology associated with the old ethic. We are in the grip of this psychology when we project our own dark shadow onto an individual or group identified as our "enemy," failing to see it in ourselves. The only effective alternative to this dangerous shadow projection is shadow recognition, acknowledgement, and integration into the totality of the self. Wholeness, not perfection, is the goal of the new ethic.

The Origins and history of consciousness Erich Neumann 1962

The Origins and History of Consciousness Erich Neumann 2020-03-31 The Origins and History of Consciousness draws on a full range of world mythology to show how individual consciousness undergoes the same archetypal stages of development as human consciousness as a whole. Erich Neumann was one of C. G. Jung's most creative students and a renowned practitioner of analytical psychology in his own right. In this influential book, Neumann shows how the stages begin and end with the symbol of the Uroboros, the tail-eating serpent. The intermediate stages are projected in the universal myths of the World Creation, Great Mother, Separation of the World Parents, Birth of the Hero, Slaying of the Dragon, Rescue of the Captive, and Transformation and Deification of the Hero. Throughout the sequence, the Hero is the evolving ego consciousness. Featuring a foreword by Jung, this Princeton Classics edition introduces a new generation of readers to this eloquent and enduring work.

Hoe de wereld denkt Julian Baggini 2019-03-22 Een van de grote onverklaarde wonderen in de geschiedenis van de mens is dat de geschreven filosofieën in het oude China, India en Griekenland onafhankelijk van elkaar rond dezelfde tijd tot bloei kwamen. Die vroege filosofieën zijn van grote invloed geweest op de ontwikkeling van uiteenlopende culturen in verschillende delen van de wereld. Wat we in het Westen 'filosofie' noemen is nog niet het halve verhaal. Met zijn verkenning van de filosofieën van Japan, India, China en de islamitische wereld, en de minder bekende orale tradities van Afrika en de oorspronkelijke volkeren van Australië, wil Julian Baggini onze

horizon verbreden. Hij interviewt denkers uit alle delen van de wereld en behandelt vragen zoals: Waarom is het Westen individualistischer dan het Oosten? Waarom heeft het secularisme minder invloed in de islamitische wereld dan in Europa? En hoe heeft China weerstand weten te bieden aan oproepen tot meer politieke vrijheid?
